

Accredited calibration laboratory

Cartesy is not only one of the leading manufacturers of measurement and sensor technology, we are also there for you as a calibration service provider with our expertise. In our in-house calibration laboratory, we carry out both **accredited calibration in accordance with DIN EN ISO/IEC 17025:2018 (DAkks)** and **factory calibrations (ISO calibration)**.

Scope of Services

Accredited calibration

- Force: 50 N to 50 kN
(Guideline: DKD-R 3-3:2018)
- Pressure: -1 to 50 bar relative, pneumatic
(Guideline: DKD-R 6-1:2014)
- Pressure: 1 to 700 bar relative, hydraulic
(Guideline: DKD-R 6-1:2014)

Factory calibration

- Force: up to 300 kN
- Pressure: -1 to 50 bar relative, pneumatic
- Pressure: 1 to 700 bar relative, hydraulic
- Mass: up to 30 t

We are constantly expanding our scope in order to enhance our service for you.

Accredited calibration

DAkks calibrations are only carried out by accredited calibration laboratories and are internationally recognized. They are based on strict standards (DIN EN ISO/IEC 17025) and guidelines to ensure the accuracy and traceability of the measurement results and are audit-proof.

Factory calibration

Factory or ISO calibration differs in its requirements from DAkks calibration: here, the calibration laboratory or the customer defines the specifications. Of course, all the test equipment we use for factory calibration is also traceable.

Calibration service from experts

As a Cartesy customer, you benefit from competent support, fast order processing and **excellent service** from our experts. Put your trust in Cartesy's expertise!

Convince yourself of our calibration service!

Calibrating your measuring equipment has never been so easy: book our calibration service conveniently via the **Cartesy web store** or directly by email or phone - our team will contact you immediately to arrange an appointment. Our calibration experts will take care of everything else.

If you can only spare your test equipment from your work processes for a short time, we will support you with **efficient scheduling and fast processing**. Benefit from **comprehensive coordination** by our calibration team: we take care of planning, carrying out the calibration and **transmitting the results to you**.

We are also happy to take on the repair or maintenance of your measuring equipment.

Calibration laboratory accredited by DAkkS according to DIN EN ISO/IEC 17025:2018. The accreditation is only valid for the scope of accreditation listed in the annex to the certificate [D-K-22378-01-00].
